

## W2 CLEAR VIEW

Infosafe No.: CI043  
ISSUED Date : 14/12/2022  
ISSUED by: CUSTOM CHEMICALS  
INTERNATIONAL PTY LTD

### Section 1 - Identification

---

**Product Identifier**

W2 CLEAR VIEW

**Product Code**

SOLCW220- 20L, SOLCW2PK - 5L

**Company Name**

Hanley Industrial Enterprises Pty Ltd (49 010 930 471)

**Address**

21 Yarraman Place (PO Box 515) Virginia  
QLD 4014 AUSTRALIA

**Telephone Number**

Tel: (07) 3326 6711

**Emergency Phone Number**

13 11 26

**Recommended use of the chemical and restrictions on use**

Water-based cleaner

### Section 2 - Hazard(s) Identification

---

**GHS classification of the substance/mixture**

Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

**Hazard Statement (s)**

H226 Flammable liquid and vapour.

**Precautionary Statement – Prevention**

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P233 Keep container tightly closed.

P240 Ground and bond container and receiving equipment.

P241 Use explosion-proof [electrical/ventilating/lighting] equipment.

P242 Use non-sparking tools.

P243 Take action to prevent static discharges.

P284 [In case of inadequate ventilation] wear respiratory protection.

**Precautionary Statement – Response**

P304 IF INHALED: If breathing is difficult, remove affected person to fresh air and keep at rest in a position comfortable for breathing.

P370+P378 In case of fire: Use water spray, dry chemicals or carbon dioxide to extinguish.

**Precautionary Statement – Storage**

P403+P235 Store in a well-ventilated place. Keep cool.

**Precautionary Statement – Disposal**

P501 Dispose of contents/container to an approved waste facility.

### Section 3 - Composition and Information on Ingredients

---

**Ingredients**

Name	CAS	Proportion
Ethanol	67- 17- 5	10- 30 %
Other ingredients classified as non hazardous at the concentrations used according to the criteria of Safe Work Australia	-	-

**Section 4 - First Aid Measures****First Aid Measures**

If poisoning occurs contact a doctor or Poisons Information Centre Phone Australia 131126, New Zealand 0800 764 766.

**Inhalation**

Remove victim from exposure if safe to do so. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume a comfortable position and keep warm. Seek medical advice if symptoms persist.

**Ingestion**

Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).

**Skin**

Wash skin with plenty of soap and water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation develops.

**Eye**

Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist).

**First Aid Facilities**

Use should be made of an on-site approved first aid kit if required in the first instance until medical assistance is forthcoming. Potable water should be available to rinse eyes or skin.

**Advice to Doctor**

Care must be used to prevent aspiration. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

**Section 5 - Firefighting Measures****Suitable Extinguishing Media**

Use extinguishing media appropriate to surrounding fire conditions. Use carbon dioxide (CO<sub>2</sub>) fire extinguisher, water fog or fine water spray.

**Hazards from Combustion Products**

Water/alcohol based. In use, may form flammable/explosive vapour/air mixture. If involved in a fire will emit toxic fumes

**Special Protective Equipment for fire fighters**

Fire fighters to wear full body protective clothing with breathing apparatus. Deluge with water to cool containers. Evacuate area move upwind of fire.

**Specific Methods**

Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition. Evacuate area - move upwind of fire.

**Specific hazards arising from the chemical**

May decompose on heating emitting toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to products of decomposition.

**Other Information**

Flash point ca 45°C

**Section 6 - Accidental Release Measures****Spills & Disposal**

Minor spills do not normally need any special clean-up measures. In the event of a major spill, prevent spillage from entering drains or water courses.

For large spills, or tank rupture, eliminate any ignition sources. Stop leak if safe to do so. If available, use water spray to disperse vapour. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water.

If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

#### **Personal Protection**

Refer section 8 of this SDS.

#### **Environmental Precautions**

Use appropriate containment to avoid environmental contamination.

## **Section 7 - Handling and Storage**

---

#### **Precautions for Safe Handling**

Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling.

#### **Conditions for safe storage, including any incompatibilities**

Store in a cool, dry, well ventilated place. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for spills.

#### **Additional information on precautions for use**

Always use clean and dry equipment to dispense the product. Dispensers should be cleaned before and after use. All dispensers should be washed out after use.

## **Section 8 - Exposure Controls and Personal Protection**

---

#### **Exposure Control Measures**

Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.

#### **Occupational exposure limit values**

SWA exposure limits: No value assigned for this specific material by Safe Work Australia.

#### **Engineering Controls**

Ensure ventilation is adequate to maintain air concentrations below exposure standards. Avoid generating dusts of the product. Use only in a well-ventilated area. Ensure airflow, where this product is used, is directed away from the operators.

#### **Respiratory Protection**

Avoid generating mists of the product. If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

#### **Eye and Face Protection**

Not normally required for deodorant applications using solutions of the product. The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

#### **Hand Protection**

Generally not required for deodorant operations.

Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc

#### **Personal Protective Equipment**

Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

## **Section 9 - Physical and Chemical Properties**

---

Properties	Description	Properties	Description
Form	Liquid	Colour	Clear green

<b>Odour</b>	Raspberry	<b>Melting/Freezing Point</b>	ca. 0°C
<b>Boiling Point</b>	ca. 100°C	<b>Specific Gravity</b>	0.96 - 1.00
<b>pH</b>	7.2 - 8.6 neat	<b>Volatile Component</b>	Ca 90%
<b>Flash Point</b>	ca. 45°C	<b>Flammability</b>	Does not support combustion.

## Section 10 - Stability and Reactivity

---

### Chemical Stability

Stable under normal conditions of use.

### Conditions to Avoid

Heat, direct sunlight, open flames or other sources of ignition.

Avoid exposure to extreme pressure.

### Incompatible Materials

Avoid reducing agents and oxidising agents.

### Hazardous Decomposition Products

Product can decompose on combustion to form toxic fumes.

### Other Information

Store in a cool, dry place. Use only as directed. Store in accordance with directions given in Section 7 (Handling and storage) of this SDS.

## Section 11 - Toxicological Information

---

### Toxicology Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects may arise if the product is mishandled and overexposure occurs.

### Ingestion

Ingestion of this product may cause nausea, vomiting, abdominal pain and irritation to the mouth, throat and stomach. Alcohol content may affect behavior (central nervous system depression, depression) and metabolism. May also affect the respiratory system and cardiovascular system, liver and kidneys.

### Inhalation

No vapour or mist generally associated with liquid form of the product – water based. Exposure and inhalation of generated mists of this product may produce mucous membrane and respiratory irritation.

### Skin

Not expected to be irritating. Prolonged contact with concentrated solutions may cause irritation in certain individuals. Prolonged and repeated skin contact with solutions may induce eczematoid dermatitis in certain individuals.

### Eye

Eye contact may cause stinging, blurring, tearing.

### Carcinogenicity

Not expected to be carcinogenic.

## Section 12 - Ecological Information

---

### Ecotoxicity

No information available.

## Section 13 - Disposal Considerations

---

### Disposal Considerations

Refer to State Land Waste Management Authority. Transfer product residues to a labelled, sealed container for disposal or recovery. Waste disposal must be by an accredited contractor. Do not put down the drain.

## Section 14 - Transport Information

---

### Transport Information

Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail or NZS

5433:1999 Transport of Dangerous Goods on Land.

**ADG U.N. Number**

None Allocated

**ADG Proper Shipping Name**

None Allocated

**ADG Transport Hazard Class**

None Allocated

---

## Section 15 - Regulatory Information

**Poisons Schedule**

Not Scheduled

**Australia (AICS/AIIC)**

All ingredients listed

---

## Section 16 - Any Other Relevant Information

**Date of Preparation**

SDS reviewed: December 2022. Supercedes: August 2021

**Revisions Made**

GHS7 Review

**Uses and Restrictions**

WINDOW CLEANER can be used in a hand held spray gun. Spray on and wipe off leaving no residue. Always use a clean cloth or paper towel with minimum lint to polish.

**User Information**

WINDOW CLEANER is formulated with a newly developed 'green' approved nano-additive for hard surface cleaners. It forms a protective layer on glass and polymeric surfaces which repels lime scale and soils and reduces the tendency of surfaces to mist up.

- Rapid spot and streak free drying
- Makes cleaning easier
- Reduces problem misting
- Repels problem soils
- Modifies surfaces for easier cleaning
- GREEN that stays clean

**Other Information**

DO NOT MIX WITH OTHER CHEMICALS WITHOUT PRIOR CONSULTATION WITH THE MANUFACTURER. Always use product as directed. Never return any unused material to original drum.

This SDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier
